All The Bass You Need

Descend | DN10

Ultra-Performance, 500W 10" Subwoofer with Dual 10" Bass Radiators

The DN10 performs bigger, louder and clearer than other 10" subwoofers. Its unique 3XR™ Architecture creates three times the radiating surface area of similarly sized subs, providing even more bass. And because it uses passive bass radiators, you get big, thrilling bass with no port noise distortion. It's everything you need.

KEY BENEFITS

3XR™ Architecture for Loud & Clear Bass

Descend Series subwoofers feature Definitive Technology's new 3XR™ Architecture, providing three times the bass-producing radiating surface area of a traditional ported subwoofer. This extra surface area moves more air, resulting in massive bass. And because 3XR™ doesn't use ports, it provides crystal-clear lows with no port noise distortion.

Deep Impact

The DN10 brings bass as low as 28Hz to your system, adding visceral impact to whatever you're listening to. And due to its 3XR™ Architecture, it performs like a 12" subwoofer even though it has a 10" driver.

Custom Class D Digital Amplification

The DN10 is equipped with a 500W peak custom Class D digital amplifier, designed to get the most out of the DN10's 3XR™ Architecture. This custom amplification gives the Descend DN10 enough power and efficiency to play with significant detail while still packing a punch.

Control & Customization

You can customize the DN10 to the needs of your own application, system and space. The DN10 features built-in controls to dial in volume, low pass filter and phase (0/180°) for optimum bass levels. Set its power toggle to Auto on/off or DC control for fast and easy on/off power switching.

PRODUCT FEATURES

3XR™ Architecture: for shockingly loud, clear, deep bass

As Low as 28Hz: for deep impact from any system

Dual 10" Radiators: for more bass and no port noise

Custom 500W Peak Class D Amplifier: for maximum impact

Easy Customization & Control: it blends right in

Limited Warranty: 3 year amplifier, 5 years driver

SPECIFICATIONS

Colors	Glacier White & Midnight Black
Transducer	10" Long-Throw Woofer
Passive Radiators	Dual 10" 3XR™ Configuration
Bass Type	Bass Radiator
Dimensions	16.8" x 16.0" x 17.1" 425.4 x 407.4 x 433.2mm
Amplifier Type	Class D
Peak Power	500W
Continuous (RMS)	200W
Frequency Response (-/+ 3dB)	28-200Hz
Low-Pass Crossover Freq	60-120Hz
Phase Adjustment	0/180°
LFE	Single RCA
Speaker	Left/Right 5-Way Binding Posts
What's in the Box	Subwoofer Power Cord Quick Start Guide Registration Card
